REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious the overall claimed method of guiding hooks of an anastomotic connector into an aperture of a blood vessel, comprising: surrounding the hooks with a mechanical element that compresses them towards each other; wherein surrounding comprises inserting the hooks into a wire loop; and engaging tissue of an opening in the sidewall of one of two blood vessels and the other of the two blood vessels with the hooks to form a fluid tight connection therebetween.
2. The examiner agrees that the prior art of record Sakura 4214587 does not teach or suggest engaging tissue of an opening in the sidewall of a blood vessel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
